SEATTLE BANK

A ARNOLD AND D. H. MOSS INVEST ON THE COAST-POS-SESSION IN JULY - ARE WELL KNOWN HERE.

One of the Most Prominent Citizens of Billings and Montana Bankers Will Become Head of First National Bank of Snattle, Washington.

M. A. Aroold, vice President of the First National Bank of Billings, D. H. Moss, formerly of Billings, and J. A. Hall, formerly a banker in Big Tim ber, thave purchased the controlling interest of the First National Bank of Seattle, Washington, from Lester

Mr. Arnold returned from Seattle yesterday and it is understood that he will make immediate arrangements to move his family to Seattle, as he and his associates take possession of their purchase July 1, at which time Mr Arnoid will become president of the Seattle bank.

is one of the best institution on the Pacific coast. It was established in 1882 and the last statement shows de-posits aggregating \$2,962,456.87. It is situated in the busiest part of Seattle Yesler way.

Mr. Arnold is one of the best known citizens of the Yellowstone Valley and is extensively interested here. He has been one of the best boosters ever in Billings. Mr. Arnold is also inter ested in a number of banking interests in other towns in the state. He came to Billings a number of years ago from Missouri, where he was connected with the Third National Bank of St. Louis. He was also bank examaminer of Missouri for a number of

Both gentleman are well known bere. Mr. Arnold is a former Mexico boy and Mr. Moss married Miss Anna-bel Arnold.

Even if mercury and potash could cure Contagious Blood Poison the condition in which these strong minerals leave the system would make the "cure worse than the disease." But they cannot cure the vile disorder; they can only cover up the symptoms for awhile or mask the disease in the system, but as soon as the treatment is left off the hideous symptoms return. Mercury and potash eat out the delicate lining of the stomach and bowels, produce chronic dyspepsia by drying up the gastric juices, cause the teeth to decay, and often completely break down the constitution, and where they are used in large quantities, the bones become affected, while the disease for which one has so long taken this destructive treatment has not been cused. Contagions Blood Poison is a disease it will not do to trifle with. It is a vile, dangerous and destructive disorder. When the blood with. It is a vile, dangerous and destructive disorder. When the blood becomes infected with its virus the mouth and throat ulcerate, hair and eye-brows come out, glands in the neck and groin swell, copper-colored spots appear on the flesh, and in severe cases sores break out on the body, the finger nails drop off and the sufferer is diseased from head to foot. S. S. S. is the only known antidote for Contagious Blood Poison—the one remedy that is able to get to the root of the disease and force out every particle of the poison so that there are never any signs of its return. It is purely vegetable, made entirely from roots, herbs and barks of known curative value. Instead of leaving bad after-effects as some medicines do, S. S. S. tones up every part of the system and puts every part of the body in perfect health. It will also remove any lingering effects of former mineral treatment while evadicating the poison from the circulation. Special book on the home treatment of this disease and any medical advice desired furnished free to a limbar with the circulation. THE SWIFT SPECIFIC C'., ATLANTA CA.
